⁽²⁾ All the fitted stands will be dismantled from **Thursday 27th November 2025** by the companies of the Organizer.

Consequently, the exhibitors are asked to remove their goods and personal effects in the evening of the closure, **between 6.30 pm and 9.00 pm**.

b) Stand layout approval

Booth projects must be submitted for approval before **September 27, 2025**, to:

DECOPLUS

SITEVI Architecture Department

Elisabeth TOUGARD

Tel.: +33 (0)6 16 28 77 93

Email: w.decoplus@free.fr

c) Technical orders (electricity, water, etc.)

The distribution of energy and fluids to your stand is ensured under the floor of the building to the exit point that you have previously indicated to us.

This is why it is necessary to anticipate the validation of technical orders as well as the transmission of the plans essential to the proper positioning of the latter.

TECHNICAL ORDERS WITH PLANS BEFORE NOVEMBER 3rd, 2027.

After this date, each order will be subject to a feasibility study.

3) TECHNICAL SERVICES

The Online Store in your Exhibitor Area will be accessible at the beginning of July.
 You will then be able to place your technical orders.

CUSTOMER AREA

customer area

a) Energy (power, distribution)

The electrical services offered are identical to those of the other halls.

b) Fluids (water, internet, ...)

This type of service is subject to study by the technical services of the SPL OCCITANIE EVENTS depending on your location in the hall.

c) Slings

SLINGS ARE PROHIBITED DUE TO BUILDING'S STRUCTURE

All stand structures and signage must be self-supporting

4) SPECIAL ARCHITECTURAL REGULATIONS

Hall B6 has a clear construction height restriction for stands located on the periphery of the hall and whose maximum height is limited to 3.00 m and a depth of 6.50 m.

Each project must be submitted to **the SITEVI Architecture Department**, which will authorise the construction on the site or not. Any project that does not comply with the rules will be refused and a fortiori, any stand set up without the agreement of the Architecture Department may be dismantled, at the expense of the exhibitor.

No agreement between exhibitors will be authorised, only the organiser or **DECOPLUS** will be authorised to derogate after a written request.

DECOPLUS

SITEVI Architecture Department

Elisabeth TOUGARD

Email: w.decoplus@free.fr

Booth projects must be submitted before **September 27, 2025**.

4) SPECIAL ARCHITECTURAL REGULATIONS

Stand constructions must consider the following height and clearance limits:*

a) Construction heights

- Maximum authorised height of shared partitions is 2,50 m from the building floor.
- Maximum construction height of 5,00m from the building floor (3,00 m for peripheral stands).

No agreements between neighbouring stands will be accepted.

b) Aisles opening

Any construction on sides exposed to aisles must include a 50,00% opening on each side exposed to an aisle, within the limits of 8,00 m of maximum closure.

Any construction must be approving by the Organizer. Transparent structures (e.g. glass, see-through fabric) which allow to clearly see the inside of the stand may be considered as open partitions.

The positions and types of materials will have to be specified when submitting the stand project for approval.

Construction height must not exceed 2,50 m alongside aisles.

c) Clearance limits

Stand constructions must take the following clearance limits into account:

- All construction or design elements higher than 2,50 m should respected a withdrawal of 1,00 m from the aisles and neighbouring stands.
- Its height is limited at 5,00 m (3,00 m for peripheral stands).

MEZZANINES ARE PROHIBITED IN HALL B6

d) Signage / Self-supporting structure

- The sign must be in an area between 2,50 and 5,00 m above the building floor. The self-supporting structures must not exceed the height of 5,00 m above the ground (3,00 m for peripheral stands). The sign and self-supporting structure must be integrated within the limits of the stand and respect a withdrawal of 1,00 m from neighbouring stands.
- The banners (beach flag for example) must comply with a withdrawal of 1,00 m with neighbouring stands.
- Flashing lights and beacons are prohibited.

SLINGS AND HANGING TRUSSES FROM THE BUILDING STRUCTURE ARE PROHIBITED IN HALL B6

5) COOKING AND HEATING APPLIANCES

Cooking or reheating equipment is prohibited inside marquees, tents and structures.

IT IS EXPRESSEDLY FORBIDDEN TO USE GAS IN HALL B6
